Everything you need to know is right here

Training-Trade Secrets-Supply-Consulting-Information

Rubber Surfacing is what we do and there's no secret as to why we dedicate our days to this amazing surfacing solution; the benefits are astounding!

- Rubber Surfacing is naturally non-slip even when wet and snow covered.
- Rubber Surfacing can be applied directly over cracked concrete eliminating depressions, and completely renovating almost any surface type.
- Rubber surfacing has a high stretching threshold, the result is its ability to expand and contract to accommodate for ground movement and freeze-thaw cycles. This unique ability minimizes cracking.
- Rubber Surfacing is soft on bare feet and completely seamless. This benefit removes trip-hazards and unsafe concrete around pool decks.
- Rubber Surfacing comes in a variety of colors and can be accurately matched to your existing interior or exterior décor.
- Rubber Surfacing is a great alternative to concrete renovation. No need to replace, just cover, level, and enjoy.
- Rubber Surfacing is safe and can be cushioned to comply with ASTM fall height requirements making it ideal for children's playgrounds and play areas.
- Rubber Surfacing is customizable! Create unique designs and logos to suit you client's artistic flair.
- Rubber Surfacing is tough and can withstand extreme heat and extreme cold.
- Rubber Surfacing stays looking great. Cracking and pitting are virtually eliminated keeping your Rubber Surface looking great for many years.
- Rubber Surfacing eliminates grass and weed-growth completely.
- Rubber Surfacing eliminates ant nests.
- Rubber Surfacing requires no extra maintenance
- Rubber Surfacing is easy to clean and usually only requires being sprayed with a garden hose.
- Rubber Surfacing is poured-in-place making repairs evenly blended and virtually seamless.

AND SO MUCH MORE!
